Pipeline Work On Hawthorne To Slow Traffic

Construction of a 12-inch natural gas pipeline from Montemalaga and Silver Spur Rd., Palos Verdes, to Hawthorne Ave. and Newton St., has been under way several weeks by the Southern California Gas Co.

The purpose of the pipeline construction is to provide an adequate supply of gas for new residential developments in the Palos Verdes area, said E. F. Hawkesworth, southwest division manager for the utility.

Installation of the pipeline on Hawthorne Ave. will begin on Monday, Dec. 12, and will probably create a traffic problem for about a week, Hawkesworth advised.

Police Chiefs J. A. Smith, of Palos Verdes Estates, and W. H. Haslam, of Torrance, stated that one-way controlled traffic will be maintained along Hawthorne Ave. from Via Azalea to Newton, during the construction. They also advised motorists normally using this route to travel Palos Verdes Drive North and Crenshaw Blvd. to avoid inconvenience and delay.

Plan Pie Baking Test For Youths

There are many paths that lead to fame, but local youngsters will be given an opportunity to take the "pie-way" to fame by entering the Cherry Pie Baking Contest being sponsored by the National Red Cherry Institute, of Chicago.

Winner of the local contest will represent the South Bay in a state-wide baking contest to be held at the General Electric Company's Los Angeles test kitchen in January. State winner will represent California at the national contest in Chicago on Feb. 21, 1956.

G. L. Blanchard, Southern California Edison Co. district manager, said the contest will be under the supervision of Mrs. Barbara Duffy, Edison Co. home economist. Contestants must be unmarried and between the ages of fourteen and twenty.

Mrs. Duffy explained the local contest will be held at the district office of the Southern California Edison Co., 125 So. Catalina Ave., Redondo Beach, on Thursday, Dec. 15. Equipment for baking the pies and all ingredients to be used by contestants will be furnished free of charge. However, contestants may bring special or favorite working equipment such as pie pans, if desired.

Souvenir Reddy Kilowatt aprons will be given to each contestant.

Production Officer Feted For Heroism

Lcdr. Clarence R. Johnson, production officer at the Navy Bureau of Aeronautics office at Douglas Aircraft's El Segundo Division, has received a gold star in lieu of his second Distinguished Flying Cross, officials announced.

The star and accompanying citation signed by Secretary of the Navy C. S. Thomas, were presented by Capt. F. D. Protenhauer, Bureau of Aeronautics Representative at the Douglas El Segundo Division.

Lcdr. Johnson was cited for "heroism and extraordinary achievement in leading his section of Douglas AD-4N Skytraders in a series of 'savagely attacks' against enemy installations and transportation facilities in North Korea on July 28, 1953.

The citation further stated that the veteran Navy pilot "personally severed a vital north-south rail artery in two separate places, destroyed 100 feet of rail bed, sealed in a railroad tunnel, demolished two buildings, destroyed three seagoing small craft, and accounted for an estimated 30 enemy dead.

Lcdr. Johnson had won his first DFC for blowing up an ammunition train during another daring attack mission in flight in rainy weather. Both flights were made off the carrier USS Boxer while he was attached to Fighter Squadron 194.

Lcdr. Johnson also holds two Air Medals and two letters of commendation with combat distinguishing devices.
